**Subject:** Microsoft Settlement

As a concerned citizen, I wish to urge you to finalize and settle this matter immediately. Prolonging litigation is not in the best interest of the American economy in general and the American people specifically. Getting this matter settled NOW will enable Microsoft as well as any and all other companies concerned to get on with the innovation and product development that has marked the progress and growth of this industry for the past two decades.

Sincerely,  
Gary Prickett  
Mission Viejo, CA
